

ZEROTRACE

One word in caps, ink draining left to right. ZERO holds full density; TRACE dissolves toward nothing. The name is the diagram — what starts as a trace ends as zero.

No symbol, no icon, no metaphor bolted on. Everything else in the identity stays silent so this single gesture reads.

01 — TYPE

TYPEFACE	Inter — SIL OFL
WEIGHT	400 Regular
CASE	All caps. No lowercase variant.
TRACKING	+0.04 em (+40/1000)
ADVANCE	6.269 × cap height
ALTERNATES	ABC Diatype · Söhne Buch · Neue Haas Grotesk Display 55
NEVER	Helvetica · Arial · Roboto · Montserrat

02 — OPACITY RAMP · FIXED

The ramp is the identity. Six values, non-negotiable. It is opacity, not colour — it resolves against whatever surface it sits on.

In CMYK or spot, convert to flat tints of K: 100 / 100 / 100 / 100 / 72 / 52 / 36 / 22 / 11. Opacity over coloured stock will muddy.

03 — CLEAR SPACE · 0.6 × CAP HEIGHT

ZEROTRACE

Nothing enters the dashed field — no rules, type, image edges or UI chrome. Align the mark to cap height and baseline, never to its bounding box. No container, badge or plate.

ZEROTRACE

ZEROTRACE

ZEROTRACE

ZEROTRACE

Third line is the full ramp at roughly 94 px wide — the trailing E is gone and it reads ZEROTRAC. Fourth line is the mono fallback at the same size. Below 180 px wide, always mono. Also mono for: one-colour reproduction, embroidery, engraving, foil, etching, placement over photography, and any process you don't control.

INK #111111 never #000	PAPER #E8E8E6 never #FFF	INVERSE INK #F2F2F0
DARK SURFACE #0B0B0B	MUTED #6B6B68 descriptor only	ACCENT none — by design

Approved backgrounds: paper, white, dark surface, black. Nothing else. No brand colour, tint, gradient or image behind the mark.

DO NOT STRETCH 	DO NOT REVERSE THE FADE 
DO NOT RECOLOUR 	DO NOT CHANGE WEIGHT OR CASE 

- No stroke, shadow, glow, blur, outline or 3D
- No rotation, arching or vertical setting
- No per-word fade — the ramp is per-letter
- Never retype the mark: always use the supplied outlined SVGs

07 — FILES

FILE	USE
zerotrace-primary.svg	Default, everywhere
zerotrace-primary-inverse.svg	Dark surfaces
zerotrace-mono.svg	Small, one-colour, uncontrolled repro
zerotrace-lockup.svg	Descriptor lockup — first-contact surfaces
zerotrace-appicon.svg	512 × 512, 112 px radius
zerotrace-monogram.svg	ZT — avatars, social squares
zerotrace-favicon.svg	Z — 16–32 px

All SVGs ship with outlined paths — no font dependency, no cross-platform drift. Source geometry: Inter Regular at 100 px, cap height 72.75, advance 626.87. Every instance carries `aria-label="ZeroTrace"`; alt text is always the plain string, never a description of the fade.
